### CHRISTMAS GREETINGS

As adults we begin to comprehend the true meaning of Christmas.

At least once each year our thoughts focus on the Christ Child, the brotherhood of man and compassion for others. From such thoughts these familiar greetings were born:

Peace on Earth - Good Will to All Men

Merry Christmas

Happy New Year

These time-honored spontaneous expressions will be heard over again during the holiday season. How wonderful it would be if the spirit underlying these phrases would remain with us throughout the year!

At Christmastime 1956, it is indeed heart warming to send all the friends of the hospital -- patients, former patients, employees, volunteer workers and other acquaintances -- sincere good wishes for the Yuletide and New Year.
