VISITORS CONT.
fr. p. 3

Advisor with the International Cooperation Administration Mission in Liberia, spent several days at this laboratory.

He gave a seminar on:

"Malaria Control in Liberia"

A very welcome visitor in June, was Dr. McWilson Warren, who was formerly a Medical Technician at this laboratory.

Dr. Warren left here in the fall of 1954 to do graduate work and has just received his doctorate from The Rice Institute in Houston, Texas.

Dr. Robert W. Burgess has returned to the laboratory after a month's trip across country to California. He and his family made the trip by auto, and had a very nice vacation.

Sympathy has been extended to Miss Aimee Wilcox, whose mother suddenly passed away on June 25.

EMPLOYEE HIGHLIGHTS ---

Mrs. Alice Hayes, Mrs. Audrey Bundrick, and Mrs. Burdelle Dinkins, Saunders Building psychiatric aides, took their vacations in June, returning to work the latter part of the month.

Mrs. Hannah Glover and Mrs. Virginia Caldwell, aides at Saunders Building, had a very pleasant June week-end at Isle of Palms and Folly Beach, Charleston, S. C. While there, they visited one of the parks,

and other places of interest. Mrs. Doris Duncan, R. N., of Saunders, has also taken her vacation. We missed her from the wards.

LAKE MURRAY OUTING

Mr. and Mrs. J. E. Kelly and son, Pat, with other relatives, visiting from Washington, D. C., New York and Columbia, enjoyed a lovely afternoon, June 21st, at the Kelly home on Lake Murray.

Swimming, fishing, boating, picnicing and Bar-B-Q Hamburgers prepared by Chef J. E. Kelly were enjoyed. . . . not saying anything about the crop of red-bugs we got to scratch.

Dear Mrs. Shimmel:

I wonder whether all our people here might like to know something of what we are learning from our psychologist, Dr. Boris Gertz.

Our topic for discussion this morning was GOING HOME - "the end result of all we have learned in the hospital." The first sub-topic was "Getting along with People." I believe I can summarize suggestions, as follows:

- (1) Obedience to orders.
- (2) Cleanliness.

NURSING EDUCATION SECTION --

(Miss Martha Bradley, Dir.)

On June 27, 1957, sixty-three affiliating student nurses representing eleven hospitals in South Carolina, received Certificates of Completion in Psychiatric Nursing from Dr. William S. Hall, superintendent of the hospital.

Dr. Hall thanked the student nurses for their help, kindnesses and courtesies shown to the patients.

The next affiliating class started Monday, July 8, 1957, and known as Class 29. It is comprised of 67 student nurses from twelve hospitals in South Carolina.

Lilyan R. Klein, R. N.

- (3) Facing problems, reality.
- (4) Understanding why situation arises.
- (5) Sharing.
- (6) Listening while others bring problems to our attention.
- (7) Showing approval and appraising honest efforts to win good will and respect of those we admire and love.
- (8) Earning privileges as we grow more cooperative - goals, no restraints and no locked doors.

Come to see us again soon.

Sincerely,

Emma M. D.
